

kwikSTIK® Paper-Faced Metal Tape on Inside Corner Trim – P2 (PIC)

kwikSTIK® Paper-Faced P2 tape-on inside corner trim is designed to form a true inside (90°) corner. Features over 50% thicker steel than ASTM standard C1047 minimum requirement for a strong, durable inside corner. The rigid steel-reinforced corner is covered with a unique, high strength paper providing maximum strength and protection while preventing cracking caused by the movement or shrinkage of framing members. Install by pressing firmly into joint compound and removing excess compound with a drywall knife or clean rag.

Product Data and Ordering Information

Material: 0.040 min thickness, minimum G40
Part Number: PIC14EGB

Length	Pieces Per Carton	Cartons Per Pallet	Feet Per Carton
10'	50	56	500

Drawing not to scale

All Phillips products are made in the U.S.A.

ASTM and Code Standards

Phillips kwikSTIK® Paper-Faced Tape-On Metal Inside Corner Trim meets or exceeds:

- ASTM C1047 Standard Specification for Accessories for Gypsum Wallboard*
- ASTM A653 Standard Specification for Steel Sheet, Zinc-Coated (Galvanized) or Zinc-Iron Alloy-Coated (Galvannealed) by the Hot-Dip Process
