EB Metal US: technical@ebmetal.us

To Whom It May Concern,

This letter is to certify that Super Stud Building Products and EB Metal US, manufactures cold-formed steel framing components, including studs, track, joists, and accessories, at facilities located in the United States.

In accordance with the Build America, Buy America Act (Pub. L. No. 117-58, §§ 70901–70927, enacted November 15, 2021), our products qualify as manufactured products under the Act. Specifically:

• Final Manufacturing – All Super Stud and EB Metal US framing members are manufactured in the United States.
• Domestic Content – Super Stud and EB Metal US products are manufactured using U.S. labor and equipment. The steel coil used in production may include both domestic and imported sources; however, all roll forming, fabrication, and finishing occur within the United States.

Compliance with Standards – All products comply with the applicable provisions of:

• ASTM A1003/A1003M – Steel Sheet for Cold-Formed Framing Members
• ASTM A653/A653M – Zinc-Coated (Galvanized) Steel Sheet
• AISI S100-16 (with 2020 Supplement 2) – North American Specification for the Design of Cold-Formed Steel Structural Members
• AISI S240, S202, S201 – Cold-Formed Steel Framing Standards

This certification is provided to support contractors, distributors, and project teams requiring BABA compliance documentation for federally funded infrastructure projects. Supporting mill certifications and additional source documentation are available upon request.

Thank you,

Technical Team
